exp:install

Source file: doc/eng-us/examples/commands/install.md Last changed 2026-11-04
https://doc.exponential.earth/exphelp/viewer/examples/commands/install.md

One-command installation, SQLite by default, no kickstart.ini needed (a dry run unless --apply).

Script `bin/php/install.php`, code in `kernel/private/classes/commands/install.php`. Run it from the installation root, as the user the web server runs as:

Shell

```
./console exp:install --help
./console exp:names --help
php bin/php/install.php --help
```
