content.ini [ContentVersionDiffSettings]

The settings of [ContentVersionDiffSettings] in content.ini: UseSimplifiedXML

Source file: `doc/eng-us/examples/ini-settings/content/ContentVersionDiffSettings.md` Last changed 2026-11-04
https://doc.exponential.earth/exphelp/viewer/examples/ini-settings/content/ContentVersionDiffSettings.md

The block `[ContentVersionDiffSettings]` of `settings/content.ini`, with 1 setting(s).

Never edit `settings/content.ini` itself: an update replaces it. Put the settings you change in an override, which wins over the shipped file:

- `settings/override/content.ini.append.php` for every siteaccess,
- `settings/siteaccess/<siteaccess>/content.ini.append.php` for one siteaccess,
- `extension/<extension>/settings/content.ini.append.php` in an extension (read when the extension is active).

UseSimplifiedXML

> When enabled, diff of eZXMLText will occur in the simplified xml input format, with formatting tags.
> When disabled, diff of eZXMLText will occur with just plain text.

Default: `disabled`.

INI

```ini
<?php /* #?ini charset="utf-8"?
# settings/override/content.ini.append.php
[ContentVersionDiffSettings]
UseSimplifiedXML=disabled
*/ ?>
```
