subitems.ini [Defaults_users]

The settings of [Defaults_users] in subitems.ini: Subtree, ParentClassIdentifiers, Columns

Source file: doc/eng-us/examples/ini-settings/subitems/Defaults_users.md Last changed 2026-11-04
https://doc.exponential.earth/exphelp/viewer/examples/ini-settings/subitems/Defaults_users.md

The block `[Defaults_users]` of `settings/subitems.ini`, with 3 setting(s).

> The users tree (content.ini [NodeSettings] UserRootNode=5); the list's former user defaults

Never edit `settings/subitems.ini` itself: an update replaces it. Put the settings you change in an override, which wins over the shipped file:

- `settings/override/subitems.ini.append.php` for every siteaccess,
- `settings/siteaccess/<siteaccess>/subitems.ini.append.php` for one siteaccess,
- `extension/<extension>/settings/subitems.ini.append.php` in an extension (read when the extension is active).

Subtree

Default: a list of 1: `5`.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/subitems.ini.append.php
[Defaults_users]
# an empty "Subtree[]" first replaces the shipped list; without it the items are added
Subtree[]
Subtree[]=5
*/ ?>
```

ParentClassIdentifiers

Default: a list of 1: `user_group`.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/subitems.ini.append.php
[Defaults_users]
# an empty "ParentClassIdentifiers[]" first replaces the shipped list; without it the items are a
dded
ParentClassIdentifiers[]
ParentClassIdentifiers[]=user_group
*/ ?>
```

Columns

Default: a list of 3: `name`, `modifier`, `published`.

INI

```ini
<?php /* #?ini charset="utf-8"?
# settings/override/subitems.ini.append.php
[Defaults_users]
# an empty "Columns[]" first replaces the shipped list; without it the items are added
Columns[]
Columns[]=name
Columns[]=modifier
Columns[]=published
*/ ?>
```
