upload.ini [image_ClassSettings]

The settings of [image_ClassSettings] in upload.ini: FileAttribute, NameAttribute, NamePattern

Source file: doc/eng-us/examples/ini-settings/upload/image_ClassSettings.md Last changed 2026-11-04
https://doc.exponential.earth/exphelp/viewer/examples/ini-settings/upload/image_ClassSettings.md

The block `[image_ClassSettings]` of `settings/upload.ini`, with 3 setting(s).

> Consists of the class identifier name with _ClassSettings appended
> This example is the for 'image' identifier.
> [image_ClassSettings]
>
> The class attribute identifier which will get the file data
> FileAttribute=image
>
> The class attribute identifier which will get the name,
> the name is calculated using NamePattern
> NameAttribute=name
>
> A pattern that defines the name of the object, it is
> contains text and tags enclosed in < and >.
> Available tags are:
>
> - original_filename: The filename of the uploaded file like it was on the locale machine
> - original_filename_base: Like original_filename but has just the base of the name (i.e no suffix)
> - original_filename_suffix: Like original_filename but has just suffix
> - mime_type: The detected MIME-Type of the file
>
> NamePattern=<original_filename_base>

Never edit `settings/upload.ini` itself: an update replaces it. Put the settings you change in an override, which wins over the shipped file:

- `settings/override/upload.ini.append.php` for every siteaccess,
- `settings/siteaccess/<siteaccess>/upload.ini.append.php` for one siteaccess,
- `extension/<extension>/settings/upload.ini.append.php` in an extension (read when the extension is active).

FileAttribute

Default: `image`.

INI

```ini
<?php /* #?ini charset="utf-8"?
# settings/override/upload.ini.append.php
[image_ClassSettings]
FileAttribute=image
*/ ?>
```

NameAttribute

Default: `name`.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/upload.ini.append.php
[image_ClassSettings]
NameAttribute=name
*/ ?>
```

NamePattern

Default: `<original_filename_base>`.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/upload.ini.append.php
[image_ClassSettings]
NamePattern=<original_filename_base>
*/ ?>
```
