ezcss_require template operator

The ezcss_require template operator: 6 parameter(s), registered by ezjscPackerTemplateFunctions.

Source file: doc/eng-us/examples/template-operators/ezcss_require.md Last changed 2026-11-04
https://doc.exponential.earth/exphelp/viewer/examples/template-operators/ezcss_require.md

The ezcss_require template operator

Registered in `extension/ezjscore/autoloads/eztemplateautoload.php` by the class `ezjscPackerTemplateFunctions` (`extension/ezjscore/autoloads/ezjscpackertemplatefunctions.php`). The same class also registers: ezscript, ezscript_require, ezscript_load, ezscriptfiles, ezcss, ezcss_load, ezcssfiles.

Parameters

Parameter	Type	Required	Default
css_array	array	yes	array()
media	string	no	'all'
type	string	no	'text/css'
rel	string	no	'stylesheet'
charset	string	no	''
pack_level	integer	no	3

Example

Built from the parameter list above; the values are placeholders (the operator's template hints decide whether it takes an input).

Template

```
{$value|ezcss_require( array(), 'all', 'text/css', 'stylesheet', 'charset', 3 )}
```

In a shipped template

The first use in the templates of this installation, `design/admin/templates/ezinfo/about.tpl` line 18:

Template

```
{ezcss_require( 'ezinfo.css' )}
```
