fetch('audit', 'count')

The fetch function count of the audit module: 14 parameter(s), 0 required.

Source file: doc/eng-us/examples/fetch-functions/audit/count.md Last changed 2026-11-04
https://doc.exponential.earth/learninminutes/exphelp/viewer/examples/fetch-functions/audit/count.md

Defined in `kernel/audit/function_definition.php`; it calls `expAuditFunctionCollection::fetchCount()` (`kernel/classes/audit/console/expauditfunctioncollection.php`).

Parameters

Parameter	Type	Required	Default
channel	string	no	false
name	string	no	false
user	integer	no	false
login	string	no	false
object	mixed	no	false
target	mixed	no	false
result	string	no	false
severity	string	no	false
request	string	no	false
job	string	no	false
run	string	no	false
from	string	no	false
to	string	no	false
q	string	no	false

Example

In a template (the values are placeholders of each parameter's type):

Template

```
{def $result = fetch( 'audit', 'count', hash( 'channel', 'channel' ) )}
{* with every parameter *}
{def $all = fetch( 'audit', 'count', hash( 'channel', 'channel',
                                           'name', 'name',
                                           'user', 1,
                                           'login', 'login',
                                           'object', $object,
                                           'target', $target,
                                           'result', 'result',
                                           'severity', 'severity',
                                           'request', 'request',
                                           'job', 'job',
                                           'run', 'run',
                                           'from', 'from',
                                           'to', 'to',
                                           'q', 'q' ) )}
```

In PHP, the same function through the function handler (`lib/ezutils/classes/ezfunctionhandler.php`):

PHP

```
$result = eZFunctionHandler::execute( 'audit', 'count', array( 'channel' => 'channel' ) );
```
