fetchalias.ini [object]

The settings of [object] in fetchalias.ini: Module, FunctionName, Parameter

Source file: `doc/eng-us/examples/ini-settings/fetchalias/object.md` Last changed 2026-11-04
https://doc.exponential.earth/learninminutes/exphelp/viewer/examples/ini-settings/fetchalias/object.md

The block `[object]` of `settings/fetchalias.ini`, with 3 setting(s).

> usage : fetch_alias(object, hash(id, <object_id>))

Never edit `settings/fetchalias.ini` itself: an update replaces it. Put the settings you change in an override, which wins over the shipped file:

- `settings/override/fetchalias.ini.append.php` for every siteaccess,
- `settings/siteaccess/<siteaccess>/fetchalias.ini.append.php` for one siteaccess,
- `extension/<extension>/settings/fetchalias.ini.append.php` in an extension (read when the extension is active).

Module

Default: `content`.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/fetchalias.ini.append.php
[object]
Module=content
*/ ?>
```

FunctionName

Default: `object`.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/fetchalias.ini.append.php
[object]
FunctionName=object
*/ ?>
```

Parameter

Default: a hash of 1: `object_id=id`.

INI

```ini
<?php /* #?ini charset="utf-8"?
# settings/override/fetchalias.ini.append.php
[object]
# an empty "Parameter[]" first replaces the shipped list; without it the items are added
Parameter[]
Parameter[object_id]=id
*/ ?>
```
