fetchalias.ini [subtree]

The settings of [subtree] in fetchalias.ini: Module, FunctionName, Constant, Parameter

Source file: `doc/eng-us/examples/ini-settings/fetchalias/subtree.md` Last changed 2026-11-04
https://doc.exponential.earth/learninminutes/exphelp/viewer/examples/ini-settings/fetchalias/subtree.md

The block `[subtree]` of `settings/fetchalias.ini`, with 4 setting(s).

> Fetch subtree

Never edit `settings/fetchalias.ini` itself: an update replaces it. Put the settings you change in an override, which wins over the shipped file:

- `settings/override/fetchalias.ini.append.php` for every siteaccess,
- `settings/siteaccess/<siteaccess>/fetchalias.ini.append.php` for one siteaccess,
- `extension/<extension>/settings/fetchalias.ini.append.php` in an extension (read when the extension is active).

Module

Default: `content`.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/fetchalias.ini.append.php
[subtree]
Module=content
*/ ?>
```

FunctionName

Default: `tree`.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/fetchalias.ini.append.php
[subtree]
FunctionName=tree
*/ ?>
```

Constant

Default: a hash of 1: `sort_by=priority;0`.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/fetchalias.ini.append.php
[subtree]
# an empty "Constant[]" first replaces the shipped list; without it the items are added
Constant[]
Constant[sort_by]=priority;0
*/ ?>
```

Parameter

Default: a hash of 3: `parent_node_id=parent_node_id`, `offset=offset`, `limit=limit`.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/fetchalias.ini.append.php
[subtree]
# an empty "Parameter[]" first replaces the shipped list; without it the items are added
Parameter[]
Parameter[parent_node_id]=parent_node_id
Parameter[offset]=offset
Parameter[limit]=limit
*/ ?>
```
