image.ini [tiny]

The settings of [tiny] in image.ini: Reference, Filters

Source file: doc/eng-us/examples/ini-settings/image/tiny.md Last changed 2026-11-04
https://doc.exponential.earth/learninminutes/exphelp/viewer/examples/ini-settings/image/tiny.md

The block `[tiny]` of `settings/image.ini`, with 2 setting(s).

Never edit `settings/image.ini` itself: an update replaces it. Put the settings you change in an override, which wins over the shipped file:

- `settings/override/image.ini.append.php` for every siteaccess,
- `settings/siteaccess/<siteaccess>/image.ini.append.php` for one siteaccess,
- `extension/<extension>/settings/image.ini.append.php` in an extension (read when the extension is active).

Reference

Default: `reference`.

INI

```ini
<?php /* #?ini charset="utf-8"?
# settings/override/image.ini.append.php
[tiny]
Reference=reference
*/ ?>
```

Filters

Default: a list of 1: `geometry/scaledownonly=30;30`.

INI

```ini
<?php /* #?ini charset="utf-8"?
# settings/override/image.ini.append.php
[tiny]
# an empty "Filters[]" first replaces the shipped list; without it the items are added
Filters[]
Filters[]=geometry/scaledownonly=30;30
*/ ?>
```
