menu.ini [LeftMenuSettings]

The settings of [LeftMenuSettings] in menu.ini: MenuWidth

Source file: `doc/eng-us/examples/ini-settings/menu/LeftMenuSettings.md` Last changed 2026-11-04
https://doc.exponential.earth/learninminutes/exphelp/viewer/examples/ini-settings/menu/LeftMenuSettings.md

The block `[LeftMenuSettings]` of `settings/menu.ini`, with 1 setting(s).

> Controls the display of the left menu for the administration interface.
> Width setting can be used to setup the widths (the measure is em) for the
> different menu sizes (small/medium/large).

Never edit `settings/menu.ini` itself: an update replaces it. Put the settings you change in an override, which wins over the shipped file:

- `settings/override/menu.ini.append.php` for every siteaccess,
- `settings/siteaccess/<siteaccess>/menu.ini.append.php` for one siteaccess,
- `extension/<extension>/settings/menu.ini.append.php` in an extension (read when the extension is active).

MenuWidth

Default: a hash of 3: `small=13`, `medium=19`, `large=25`.

INI

```ini
<?php /* #?ini charset="utf-8"?
# settings/override/menu.ini.append.php
[LeftMenuSettings]
# an empty "MenuWidth[]" first replaces the shipped list; without it the items are added
MenuWidth[]
MenuWidth[small]=13
MenuWidth[medium]=19
MenuWidth[large]=25
*/ ?>
```
