menu.ini [Topmenu_setup]

The settings of [Topmenu_setup] in menu.ini: Icon, NavigationPartIdentifier, URL, Enabled, Shown, MegaMenuTemplate, MegaMenuSection

Source file: doc/eng-us/examples/ini-settings/menu/Topmenu_setup.md Last changed 2026-11-04
https://doc.exponential.earth/learninminutes/exphelp/viewer/examples/ini-settings/menu/Topmenu_setup.md

The block `[Topmenu_setup]` of `settings/menu.ini`, with 7 setting(s).

Never edit `settings/menu.ini` itself: an update replaces it. Put the settings you change in an override, which wins over the shipped file:

- `settings/override/menu.ini.append.php` for every siteaccess,
- `settings/siteaccess/<siteaccess>/menu.ini.append.php` for one siteaccess,
- `extension/<extension>/settings/menu.ini.append.php` in an extension (read when the extension is active).

Icon

Default: `gear`.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/menu.ini.append.php
[Topmenu_setup]
Icon=gear
*/ ?>
```

NavigationPartIdentifier

Default: `ezsetupnavigationpart`.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/menu.ini.append.php
[Topmenu_setup]
NavigationPartIdentifier=ezsetupnavigationpart
*/ ?>
```

URL

> Name=Setup
> Tooltip=Configure settings and manage advanced functionality.
> The Setup overview (setup/menu): every function of the Setup menu as a tile, grouped as the left menu

Default: a hash of 1: `default=setup/menu`.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/menu.ini.append.php
[Topmenu_setup]
# an empty "URL[]" first replaces the shipped list; without it the items are added
URL[]
URL[default]=setup/menu
*/ ?>
```

Enabled

Default: a hash of 3: `default=true`, `browse=false`, `edit=false`.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/menu.ini.append.php
[Topmenu_setup]
# an empty "Enabled[]" first replaces the shipped list; without it the items are added
Enabled[]
Enabled[default]=true
Enabled[browse]=false
Enabled[edit]=false
*/ ?>
```

Shown

Default: a hash of 3: `default=true`, `navigation=true`, `browse=true`.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/menu.ini.append.php
[Topmenu_setup]
# an empty "Shown[]" first replaces the shipped list; without it the items are added
Shown[]
Shown[default]=true
Shown[navigation]=true
Shown[browse]=true
*/ ?>
```

MegaMenuTemplate

> No PolicyList[]: setup/menu opens with any one of its functions (setup, administrate, managecache, managecronjobs,
> preload, system_info), which [MenuAccessSettings] CheckViewAccess asks.
> [TopAdminMenu] SetupTabs[] leave the top
> menu for the same users, so the tab that holds them asks for nothing more
> (setup/managecache took it from a user
> with system_info only, and the tabs moved into Setup were nowhere).
> admin4's mega menu ([TopAdminMenu] MegaMenuTabs[]=setup): the template that draws its links, the Setup menu
> ([Leftmenu_setup] MegaMenuLinks[])

Default: `design:parts/setup/mega_menu.tpl`.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/menu.ini.append.php
[Topmenu_setup]
MegaMenuTemplate=design:parts/setup/mega_menu.tpl
*/ ?>
```

MegaMenuSection

> The menu section whose MegaMenuLinks[] the template uses, for the check of its keys (unknown ones are named in the
> debug report, parts/a4_mega_menu_check.tpl)

Default: `Leftmenu_setup`.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/menu.ini.append.php
[Topmenu_setup]
MegaMenuSection=Leftmenu_setup
*/ ?>
```
