notification.ini [NotificationEventTypeSettings]

The settings of [NotificationEventTypeSettings] in notification.ini: RepositoryDirectories, ExtensionDirectories, AvailableNotificationEventTypes

Source file: `doc/eng-us/examples/ini-settings/notification/NotificationEventTypeSettings.md` Last changed 2026-11-04
https://doc.exponential.earth/learninminutes/exphelp/viewer/examples/ini-settings/notification/NotificationEventTypeSettings.md

The block `[NotificationEventTypeSettings]` of `settings/notification.ini`, with 3 setting(s).

Never edit `settings/notification.ini` itself: an update replaces it. Put the settings you change in an override, which wins over the shipped file:

- `settings/override/notification.ini.append.php` for every siteaccess,
- `settings/siteaccess/<siteaccess>/notification.ini.append.php` for one siteaccess,
- `extension/<extension>/settings/notification.ini.append.php` in an extension (read when the extension is active).

RepositoryDirectories

Default: a list of 1: `kernel/classes/notification/event/`.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/notification.ini.append.php
[NotificationEventTypeSettings]
# an empty "RepositoryDirectories[]" first replaces the shipped list; without it the items are ad
ded
RepositoryDirectories[]
RepositoryDirectories[]=kernel/classes/notification/event/
*/ ?>
```

ExtensionDirectories

Default: an empty list.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/notification.ini.append.php
[NotificationEventTypeSettings]
# an empty "ExtensionDirectories[]" first replaces the shipped list; without it the items are add
ed
ExtensionDirectories[]
*/ ?>
```

AvailableNotificationEventTypes

Default: a list of 4: `ezpublish`, `eznewcontent`, `ezcurrenttime`, `ezcollaboration`.

INI

```
<?php /* #?ini charset="utf-8"?
# settings/override/notification.ini.append.php
[NotificationEventTypeSettings]
# an empty "AvailableNotificationEventTypes[]" first replaces the shipped list; without it the it
ems are added
AvailableNotificationEventTypes[]
AvailableNotificationEventTypes[]=ezpublish
AvailableNotificationEventTypes[]=eznewcontent
AvailableNotificationEventTypes[]=ezcurrenttime
AvailableNotificationEventTypes[]=ezcollaboration
*/ ?>
```
