setup.ini [php_session]

The settings of [php_session] in setup.ini: Extensions, Require

Source file: doc/eng-us/examples/ini-settings/setup/php_session.md Last changed 2026-11-04
https://doc.exponential.earth/learninminutes/exphelp/viewer/examples/ini-settings/setup/php_session.md

The block `[php_session]` of `settings/setup.ini`, with 2 setting(s).

Never edit `settings/setup.ini` itself: an update replaces it. Put the settings you change in an override, which wins over the shipped file:

- `settings/override/setup.ini.append.php` for every siteaccess,
- `settings/siteaccess/<siteaccess>/setup.ini.append.php` for one siteaccess,
- `extension/<extension>/settings/setup.ini.append.php` in an extension (read when the extension is active).

Extensions

Default: `session`.

INI

```ini
<?php /* #?ini charset="utf-8"?
# settings/override/setup.ini.append.php
[php_session]
Extensions=session
*/ ?>
```

Require

Default: `one`.

INI

```ini
<?php /* #?ini charset="utf-8"?
# settings/override/setup.ini.append.php
[php_session]
Require=one
*/ ?>
```
