syscard.ini [Database]

The settings of [Database] in syscard.ini: AskVersion

Source file: doc/eng-us/examples/ini-settings/syscard/Database.md Last changed 2026-11-04
https://doc.exponential.earth/learninminutes/exphelp/viewer/examples/ini-settings/syscard/Database.md

The block `[Database]` of `settings/syscard.ini`, with 1 setting(s).

Never edit `settings/syscard.ini` itself: an update replaces it. Put the settings you change in an override, which wins over the shipped file:

- `settings/override/syscard.ini.append.php` for every siteaccess,
- `settings/siteaccess/<siteaccess>/syscard.ini.append.php` for one siteaccess,
- `extension/<extension>/settings/syscard.ini.append.php` in an extension (read when the extension is active).

AskVersion

> enabled: connect once and ask the server for its version; disabled: show the type and host from site.ini only

Default: `enabled`.

INI

```ini
<?php /* #?ini charset="utf-8"?
# settings/override/syscard.ini.append.php
[Database]
AskVersion=enabled
*/ ?>
```
