/content/removeassignment

The view content/removeassignment: its address, parameters and the policy functions it needs.

Source file: doc/eng-us/examples/module-views/content/removeassignment.md Last changed 2026-11-04
https://doc.exponential.earth/learninminutes/exphelp/viewer/examples/module-views/content/removeassignment.md

A view of the `content` module, defined in `kernel/content/module.php` and run by `kernel/content/removeassignment.php`.

Address

```
/content/removeassignment
```

Who may open it

The user needs this policy function:

- `content/edit`

A policy on `content/*` (every function) also grants it; limitations of the policy (section, subtree, class ...) still apply where the view checks them.

Details

Key	Value
Navigation part	ezcontentnavigationpart
UI context	edit
UI component	content
Single POST actions	ConfirmRemovalButton: ConfirmRemoval, CancelRemovalButton: CancelRemoval

Example

A link in a template (`ezurl` adds the siteaccess and quotes the address); the parameter values are placeholders:

Template

```
<a href={'/content/removeassignment'|ezurl}>content/removeassignment</a>
```

From PHP, the redirect a view gives after it has done its work:

PHP

```
return $Module->redirectTo( '/content/removeassignment' );
```
