/migration/trigger

The view migration/trigger: its address, parameters and the policy functions it needs.

Source file: doc/eng-us/examples/module-views/migration/trigger.md Last changed 2026-11-04
https://doc.exponential.earth/learninminutes/exphelp/viewer/examples/module-views/migration/trigger.md

A view of the `migration` module, defined in `kernel/migration/module.php` and run by `kernel/migration/trigger.php`.

Address

```
/migration/trigger
```

Who may open it

Listed in `settings/site.ini [RoleSettings] PolicyOmitList[]`: no policy is checked, everyone may open it. The view names no policy function, so the user needs a policy for the whole module: `migration/*` (every function of the module) in one of the roles assigned to them.

Details

Key	Value
Navigation part	ezsetupnavigationpart

Example

A link in a template (`ezurl` adds the siteaccess and quotes the address); the parameter values are placeholders:

Template

```
<a href={'/migration/trigger'|ezurl}>migration/trigger</a>
```

From PHP, the redirect a view gives after it has done its work:

PHP

```
return $Module->redirectTo( '/migration/trigger' );
```
