/setup/toolbarlist

The view setup/toolbarlist: its address, parameters and the policy functions it needs.

Source file: `doc/eng-us/examples/module-views/setup/toolbarlist.md` Last changed 2026-11-04
https://doc.exponential.earth/learninminutes/exphelp/viewer/examples/module-views/setup/toolbarlist.md

A view of the `setup` module, defined in `kernel/setup/module.php` and run by `kernel/setup/toolbarlist.php`.

Address

```
/setup/toolbarlist/<SiteAccess>
```

Ordered parameters, in this order after the view name: `SiteAccess`.

Who may open it

The user needs this policy function:

- `setup/setup`

A policy on `setup/*` (every function) also grants it; limitations of the policy (section, subtree, class ...) still apply where the view checks them.

Details

Key	Value
Navigation part	`ezsetupnavigationpart`

Example

A link in a template (`ezurl` adds the siteaccess and quotes the address); the parameter values are placeholders:

Template

```
<a href={'/setup/toolbarlist/siteaccess'|ezurl}>setup/toolbarlist</a>
```

From PHP, the redirect a view gives after it has done its work:

PHP

```
return $Module->redirectTo( '/setup/toolbarlist/siteaccess' );
```
