/user/activate

The view user/activate: its address, parameters and the policy functions it needs.

Source file: doc/eng-us/examples/module-views/user/activate.md Last changed 2026-11-04
https://doc.exponential.earth/learninminutes/exphelp/viewer/examples/module-views/user/activate.md

A view of the `user` module, defined in `kernel/user/module.php` and run by `kernel/user/activate.php`.

Address

```
/user/activate/<Hash>/<MainNodeID>
```

Ordered parameters, in this order after the view name: `Hash`, `MainNodeID`.

Who may open it

Listed in `settings/site.ini [RoleSettings] PolicyOmitList[]`: no policy is checked, everyone may open it. The user needs this policy function:

- `user/login`

A policy on `user/*` (every function) also grants it; limitations of the policy (section, subtree, class ...) still apply where the view checks them.

Details

Key	Value
Navigation part	ezmynavigationpart
UI context	authentication

Example

A link in a template (`ezurl` adds the siteaccess and quotes the address); the parameter values are placeholders:

Template

```
<a href={'/user/activate/hash/1'|ezurl}>user/activate</a>
```

From PHP, the redirect a view gives after it has done its work:

PHP

```
return $Module->redirectTo( '/user/activate/hash/1' );
```
