A view of the `visual` module, defined in `kernel/visual/module.php` and run by `kernel/visual/toolbar.php`.

Address

```
/visual/toolbar/<SiteAccess>/<Position>
```

Ordered parameters, in this order after the view name: `SiteAccess`, `Position`.

Who may open it

The view names no policy function, so the user needs a policy for the whole module: `visual/*` (every function of the module) in one of the roles assigned to them.
