ezscript_require template operator

The ezscript_require template operator: 5 parameter(s), registered by ezjscPackerTemplateFunctions.

Source file: doc/eng-us/examples/template-operators/ezscript_require.md Last changed 2026-11-04
https://doc.exponential.earth/learninminutes/exphelp/viewer/examples/template-operators/ezscript_require.md

The ezscript_require template operator

Registered in `extension/ezjscore/autoloads/eztemplateautoload.php` by the class `ezjscPackerTemplateFunctions` (`extension/ezjscore/autoloads/ezjscpackertemplatefunctions.php`). The same class also registers: ezscript, ezscript_load, ezscriptfiles, ezcss, ezcss_require, ezcss_load, ezcssfiles.

Parameters

Parameter	Type	Required	Default
script_array	array	yes	array()
type	string	no	'text/javascript'
language	string	no	''
charset	string	no	'utf-8'
pack_level	integer	no	2

Example

Built from the parameter list above; the values are placeholders (the operator's template hints decide whether it takes an input).

Template

```
{$value|ezscript_require( array(), 'text/javascript', 'language', 'utf-8', 2 )}
```

In a shipped template

The first use in the templates of this installation, `design/admin/templates/children.tpl` line 97:

Template

```
{ezscript_require( array( 'exp::core::shared', 'exp::io', 'exp::datatable', 'ezajaxsubitems_expda
tatable.js' ) )}
```
