```
*Title: Added a checkbox which allows user to stay in the edit window after publishing.

*Documentation:
The one can enable this checkbox under 'My account' inside 'Edit mode settings' menu.
If you will enable this functionality together with Locations ( one item up in the same menu),

you will have a possibility to publish object as hidden and continue edit object.
You ususally need this functionality if you want to place realtted objects under the current o
bject.
